DE -LIGHT AFTER TREATMENT DE-LIGHT AFTER TREATMENT

cleansing cream with vitamins

Action detangling and refreshing. It contains active ingredients derived from glycerin (moisturizing), rice oil (emollient) film-forming and conditioning (function detangling and conditioning). The vitamin complex consists of: Vitamin E (antioxidant), vitamin C (revitalizing), Vitamin B3 (energizing), Vitamin B5 (moisturizer), Vitamin B6 (stimulant), gives an added value to the product that makes it essential to carry out a cleansing action and restructuring in a technical system as the De- Light System. Ideal for cleansing the hair and remove any discoloration with detangling action, gives the hair lightness and cosmeticità. Specific for the next action to discoloration is a great final support to a technical system as DE LIGHT SYSTEM. Delicately scented.

box: 250 ml PE bottle with snap cap
