PLATE - BAB2654NTE
PIASTRA - BAB2654NTE

Ceramic coating with nano- titanium + Sol-Gel technology.
Thanks to this technology, the plates are thinner and provide an excellent scrolling, perfect ironing in the blink of an eye, a mirror-like shine without electrostatic effect, a greater respect for the hair, because zero friction.
This coating plates with 40% of plaques harder and more durable, resistant to scratches.
Floating Plates : easy to create waves and curls and ringlets.
Locking system for achieving maximum temperature even faster.
Ceramic heating element : temperature stability guaranteed to nearest ½ degree - instant recovery.
Switch and indicator light operation.
Ergonomic design for more comfort.
Contact revolving 2.70 m.
Dual Voltage.
