SILICIUM HAIR TREATMENT SILICIUM HAIR TREATMENT

From the laboratories Barex line is born SILICIUM HAIR TREATMENT a range of products with high technological content using to catalyze the hair as much energy as possible the natural dynamics between essential trace elements and silicon as the active principle. Regarding the skin and hair the silicon is involved in the synthesis of collagen increases the elasticity of capillaries with beneficial influences on microcirculation of the scalp and slows down the aging process against the formation of free radicals.

• USE DAILY - SILICON - MANGANESE

silicon manganese and defend your hair from pollution and environmental stress with fortifying anti-time action. Silicon is a mineral that in the tradition draws cosmic energy light and heat. The added value obtained from the combination + Silicon Manganese allows the hair to reinforce anti-aging effect thanks maintaining flexibility brilliance and luminosity.

SHAMPOO LIGHT EFFECT - anti-stress effect immediately

innovative formula to Silicium + Manganese. The active silanol powered by panthenol and trace element manganese (Mn) transmits light to the hair and water brightness and hydration.

CONDITIONER LIGHT EFFECT

Gentle formula to Silicium + Manganese. The combination of active silanol with panthenol and trace element manganese (Mn) and transmits light to the hair support brightness and protection. Due to the high restructuring nourishes and strengthens deep giving tone and vigor. The emulsion soft and creamy enriched with conditioning agents improves combing.

box: 350 ml dispenser.

SPRAY LIGHT EFFECT

functionalized silicon ultralight in association with jojoba oil and filter UV gives exceptional shine and natural. It makes hair bright

reviving the color without weighing it down nor anoint them.
box: no gas spray bottle of 150 ml.
