KERAPLANT FALL

X FACTOR - Fall superintensive energizing treatment

Contains a quantity of Trichocomplex 3 times more concentrated compared to the vials, to ensure a more targeted action during the anagen phase of the hair (growth phase that has a variable duration from 3 to 6 years with large differences between man and woman, man gets 4 years in women up to 6).

Today the problem of hair loss is very common and occurs in 80% of men between 30 and 40 years and 45% of women between 40 and 50 years. A worrying statistic is that 15 % of adolescents have symptoms of thinning. Some factors that may aggravate this anomaly are the environmental factors, lifestyle habits (smoking, antidepressant drugs, etc..) And some associated diseases (crash dieting, anemia, pregnancy, sudden trauma, etc..). In more severe cases require a shock treatment with X FACTOR to stimulate hair growth and cellular metabolism.
