INEBRYA COLOR

professional permanent colouring cream enriched with flax seeds

The highest quality and concentration of micro-pure pigments ensure a perfect natural colour for a total coverage of white hair.

The wide range of intense colours and brilliant imagination allows reflections ' stable and long-lasting. The special combination of flax seeds and aloe vera's conditioning and nourishing properties ' keeps the healthy hair is soft and shiny for maximum skin tolerance and delicacy.

Very high accuracy color technology favours the perfect bond of all molecules within the hair dyes during the coloring process ' without pigment dispersions that could alter the coverage or destabilize the reflection ' ensuring a uniform color result is reliable and gentle on the skin.

shades: INEBRYA COLOR is available in 127 nuances.

directions for use: mix in a non-metallic container 50 ml of cream with creamy oxidant emulsion 75 ml Inebrya predetermined volumes (mixing ratio 1:1 ' 5) ' until a smooth cream. The super series brightening it should be mixed in mixing ratio 1:2 with oxidizing emulsion to 40 vol. (12%).
