DOC COLOR DOC COLOR

The colouring system **DOC** by **Jean Paul Mynè** is an absolute revolution; eliminates water from color to make room for all the chromatic performance-enhancing drugs and hair health. The water is replaced with aloe vera, spirulina and moisturizing oils: olive oil, limnanthes alba, vetiver oil, the babassu oil, Shea butter, marine collagen, amino acid complex. Hair healthy, soft, luminous and comfortable during your application with the delicacy on the scalp for a pleasant sensation of freshness and lightness. No ammonia, no fragrances, with no trace of nickel and VEGAN ingredients, **DOC COLOR** is the new frontier of hair color.
