ULTIMATE BLONDE

Solid Ultimate Blonde, super color brightening

The Ultimate Blonde Keune has created a well-defined Blond color lightening overview suitable for natural or coloured hair. Triple color protection ensures long lasting Ultimate Blond: the silk proteins protect and nourish your hair, allowing pigments to fixate the capillary structure; Solamer gives UV protection from the Sun, preventing discoloration and stabilizer LP300 fixes the pigments and protects hair during treatment.

Available in different levels of lift:

Ultra – over 6 tones

Super – from 4 to 5 tones

Special – from 3 to 4 tones
