DIANTEA
Resorcinol

DIANTEA is a hair dye product that uses Resorcinol and PPD (p-Phenylenediamine) for coloring. It also contains ceramides and moisturizers to nourish the hair. The product is available in two main forms: cream and spray.

DIANTEA is available in two main forms: cream and spray. The cream is used for coloring and is applied to the hair for a certain amount of time. The spray is used for nourishing and is applied to the hair after coloring.
