PRIVATE LABEL

CONTRACT MANUFACTURER

Un efficient laboratory, in co-operation also with university institutions, develops research and quality controls. Its highly qualified personnel can design and produce new formulas created on the basis on the individual needs of the client and define the best production strategy. Our aim is offer our clients not only reliable and competitive products, but also adequate (partial or complete) "full service" assistance. We are therefore in a position to follow our clients, step by step, from the launching to the actual selling of a product. The versatility of our production sector can also guarantee small, medium or big supplies, both in bulk and in finished products. Our range of products is very wide and includes:

- hair and scalp products; face products (detergents, tonic lotions, creams, masks, etc.);
- body products (oils, creams, anticellulities, firming products);
- sun protection and sun-tanning products (creams, lotions, protective, oils and sun-tanning products,

ect.);

- nails polish;

- alcoholic perfumery;

Moreover, the cosmetics research and technology laboratory ensures a continuous updating of the formulas and can adapt the products to the specific needs of our clients. Modern technologies and highly-qualified human resources guarantee total reliability, a production capacity of up to 5.000 kilos per day including hair products as well as face and body products as well as face and body products. Our packaging lines can produce, according to the size of the packaging up to:

- 6.000/day (bottle, jars, small vases);

- 3.000/day (hair-spray bottles);

- 25.000/day (phials)

Our production capacity is trebled in comparison with 1997, with a future growth trend foreseen at a 25% rate annum. Three complete lines, one of which fully automatic, all very flexible and adaptable to any kind of packaging, a phial filling machine and a complete line for the filling and scaling of hair spray bottles allow our firm to satisfy all kinds of packaging need.
